

Finonyx EOD Advantage

Automating End-of-Day Operations for Faster, Error-Free Banking

Every day, banks perform critical End-of-Day (EOD) processes, batch executions, reconciliations, report generation, data backups, and system health checks. When these tasks are done manually, they can result in delays, operational errors, system downtime, and compliance risks.

Finonyx EOD Advantage is a smart automation solution designed to simplify, schedule, and monitor the complete EOD cycle for Oracle FLEXCUBE-based banks. It replaces manual intervention with a rule-based, fully automated engine, ensuring accuracy, speed, and complete visibility into EOD and BOD operations.

Why EOD Advantage?

- Automates manual, repetitive EOD/BOD banking tasks
- Reduces dependency on IT teams and overnight operations staff
- Integrates seamlessly with Oracle FLEXCUBE and middleware systems
- Ensures error-free execution with alerts, logs, and real-time monitoring
- Improves branch productivity, compliance, and customer service timelines

Key Features

Automated EOD Scheduling & Execution

Plans and executes EOD tasks automatically, batch processes, validations, report generation, backups, etc.

Seamless Oracle FLEXCUBE Integration

Built specifically for FLEXCUBE workflows to enable direct batch execution and status tracking.

Real-Time Monitoring Dashboard

Shows live status of running, pending, completed, or failed processes with timestamps and progress tracking.

Alerts & Exception Handling

Sends automated alerts via email/SMS for delays, failures, or manual intervention requirements.

Role-Based Access & Secure Processing

Controls user access, approvals, and activity tracking with complete audit logs.

Configurable Workflows

Customizable EOD/BOD process flows based on bank, branch, region, or time zone.

Automated Reports & Audit Trails

Generates EOD summaries, error reports, process logs, and compliance-ready audit files.

Scalable & Microservice-Based Architecture

Supports multi-branch, multi-country deployment with cloud, on-premise, or hybrid models.

Technical Highlights

Component	Details
Technology Stack	Java, Microservices, REST APIs, Shell Scripts, Oracle DB
Integrations	Oracle FLEXCUBE, Scheduler Tools, MQ, SFTP, ISO 8583/20022
Security	Role-based access, encrypted logs, ISO 27001:2022 standards
Deployment Models	On-Premise, Private Cloud, Hybrid
Scalability	Supports multi-branch, multi-region, high-volume processing
Monitoring & Logs	Central dashboard, process logs, alerts, retry mechanisms

Business Impact

Faster End-of-Day Operations

Reduces EOD completion time from hours to minutes, ensuring timely BOD (Start of Day) across all branches.

Lower Operational Costs

Cuts overtime staffing, manual interventions, IT dependencies, and system downtimes.

Error-Free & Audit Ready

Removes manual errors, maintains accurate batch logs, and provides fully traceable audit history.

Higher Staff Productivity

Frees up branch and IT teams from repetitive tasks to focus on customer service and core banking activities.

Improved Compliance & Reporting

Automatically generates EOD/BOD status reports with regulatory-ready documentation

Scalable for Business Growth

Supports expansion without increasing manpower or infrastructure burden.

Effortless, Reliable & Intelligent EOD Automation

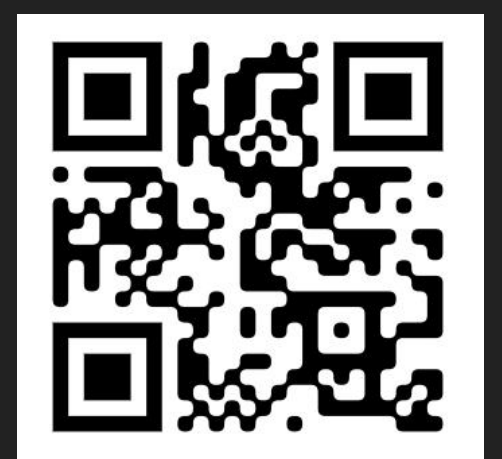

Finonyx EOD Advantage transforms banking operations by automating EOD processes end-to-end, making them faster, safer, and smarter.

It empowers banks to eliminate delays, improve accuracy, stay compliant, and deliver better customer experiences, consistently and confidently.

Partner with Finonyx

Join hands with a partner that understands banking inside out. Finonyx combines deep domain expertise with future-ready solutions like EOD Advantage to power your digital transformation journey.
